

DURAPOLS® AGRO 10X8

Mosquito Net/Anti Insect 10x8/ Drosophila Net/ 25 Mesh

GrupoCondepols  
Packaging Solutions & Wood Plastic Composite  
& Agriculture Nets

## Overview

DURAPOLS® Agro 10x8 is a fabric specifically designed to combat a "Fruit Fly" pest which comes from SouthEast Asia, and its name is *Drosophila suzukii*.

Its hole size in comparison to other Insect nets is smaller and therefore it can slow down the entry of this type of insect in various fruit orchards (cherries, blueberries, grapes, nectarines, and peaches among others).

The economic impact of these pest in Summer fruit orchard crops involves the increased use of this agrotextile to protect specially fruit orchard protections systems. Thus we can bet for **Organic Farming** and at last, we reduce pesticides consumption providing more commercial value to the crop.

## What else

High UV Stability

Better environment for the plants.

Light and easy to instal

Windbreak protection

Low evapotranspiration

Sunshade protection

*Drosophila suzukii*

Organic Farming

Light diffusion

Tearing Resistance

Special Hole Size

## Other details

Despite its main purpose is by covering fruit orchards, it can be used to cover multispan greenhouses where ventilation is more important than insulation. As well as other monofilament agrotextiles, it can be used to provide shading to the crops at the mean time.

Likewise they can be used as windbreak barriers.

## Color Range

Transparent, Grey, Black, etc.

For other different color, please ask the Sales Department. Combination of colors either in warp or weft available in order to get the appropriate tone and shading rate desired.

## Sizes

Standard rolls from 0,50 m up to 5,20 m.  
Standard lengths: 100 m, up to 1000 m (**jumbo**).  
**Tailored-made rolls** available over 5 meters made up with **Sewing Line Machine** for Big jumbo which allows a good finishing for the rolls.

## Packaging

Standard and Jumbo rolls: Cardboard cores, retractable film and adhesive tracking labels

### DOMESTIC AND INTERNATIONAL SHIPPING:

Jumbo rolls loaded directly into trucks or containers.

Standard rolls palletized

### PALLETISATION:

#### >STANDARD ROLLS:

Widths: Up to 2,50 m

Length: 100 ML

Each pallet 25 Ud

#### >STANDARD ROLLS:

Widths: From 3,00 to 5,00 m

Length: 100 ML

Each pallet: 12 Ud (folded)

Other lengths and widths  
subjected to other configurations
