

DURAPOLS® AGRO Sombreo 65%

Shading / Shade Cloth / Privacy Net / Fence Mesh

GrupoCondepols
Packaging Solutions & Wood Plastic Composite
& Agriculture Nets

Overview

DURAPOLS® Agro Shade 65% is a fabric with higher weight and density in comparison to **DURAPOLS® Agro Shade 65%**. Its application in agriculture is less usual, but some fruit trees and seedling nurseries occasionally demand higher shading rates between 50% and 80%, depending on the colors.

It is frequently used in the gardening field either as privacy fence or as shading canopy easily adaptable to pergolas or some

carports, complying with its final purpose as a cost-effective solution in comparison to other technical fabrics.

In comparison to Raschel nets it is unbreakable giving it the possibility to be more durable.

What else

High UV stability

Avoids vegetal stress

Breathable fabric

Windbreak protection

Lower evapotranspiration

Sunshade protection

Infrared radiation filter

Tearing resistance

Reduction of temperatures.

Privacy

Other details

This shading net is used lots of times to provide privacy in civil works perimeter areas or in scaffoldings for construction works.

It used as well to provide shading in outdoors and sunnier than usual areas or garden centers producing ornamental plants or fruit trees.
