

DURAPOLS® AGRO Shade 90%

Shadow Net / Shade Cloth / Privacy Net / Fence Mesh

GrupoCondepols
Packaging Solutions & Wood Plastic Composite
& Agriculture Nets

Overview

DURAPOLS® Agro Shade 90% is the best quality choice from the point of shading nets, with a weight of 100 g/m², and its most important destination is the gardening sector, Hardware Shops, as well as Industrial and Agricultural Supplies. Considering its higher weight, it has a higher tearing resistance and therefore a higher shading rate in comparison to other lighter fabrics such as **DURAPOLS® Agro Shade 65%**.

It can be used as well in the gardening field either as a privacy fence or as a cost-effective solution, easily adaptable as a canopy to pergolas or carpots.

In comparison to Raschel nets it is *"unbreakable"* giving it the possibility to be more durable.

What else

High UV stability

Avoids vegetal stress

Breathable fabric

Windbreak protection

Lower evapotranspiration

Sunshade protection

Infrared radiation filter

Tearing resistance

Reduction of temperatures

Privacy

Other details

DURAPOLS® Agro Shade 90% is used for **Water pond Covering on top**, so there is a remarkable water saving by reducing evapotranspiration. Likewise there is an improvement of the irrigation water quality.

It can be used as a tarpaulin to cover cars or any other machinery.

You can find camping carpets to cover the ground tailored-made with raffia tape shading nets. *ambién se emplea como piezas con-*
