

DURAPOLS® AGRO Anti Hail

Anti Hail Netting / Leno Fabric / Anti Birds/ Anti Pollination

GrupoCondepols  
Packaging Solutions & Wood Plastic Composite  
& Agriculture Nets

## Overview

DURAPOLS® Agro Anti Hail is the reference agrotextile for fruit crops protection, mainly against hail or hailstone, for crops such as **table grapes, apple trees, persimmon** and a growing number of fruit species. It can be used to provide sun protection in order to control **evapotranspiration** and **insolation**, and therefore to handle better big temperatures changes. This involves getting more and better harvests as well as relevant irrigation water savings.

Likewise it is used to provide birds protection or insulation against lepidoptera (carpocapsa). For citrus farming is used as a cost-effective anti **cross pollination**, by covering directly every single row of an intense fruit orchard. It is a pretty versatile and light material whose usage is increasingly in open field agriculture with big size tailored rolls to provide wind, hail and birds protection.

## What else

High UV stability

Superior fruit quality

Stop  
cross pollination

Windbreak protection

Lower evapotranspiration. Water saving

Sunshade protection

Light diffusion

Tearing resistance

Anti Carpocapsa

Recyclable material

Anti BIRDS

## Other details

The type of fabric is "LENO", and due to its particular construction it offers an excellent tearing resistance despite its light weight

DURAPOLS® Agro Anti Hail offers two possibilities mainly:

- » AntiHail 2,6x3
- » AntiHail 5x4

Different configurations of central and lateral reinforcements are available depending on the Anti-hail Protection System.

## Color Range

Transparent, Grey, Black, Green, White , etc.

For other different color, please ask the Sales Department. Combination of colors either in warp or weft available in order to get the appropriate tone and shading rate desired.

## Sizes

Standard rolls from 2,00 m up to 5,20 m.  
Standard lengths: 100 m, up to 1000 m (**jumbo**).  
**Tailored-made rolls** available over 5 meters made up with **Sewing Line Machine** for Big jumbo which allows a good finishing for the rolls.

## Packaging

Standard jumbo rolls jumbo estándar and customized rolls (less than 500 Linear Meters): Cardboard cores, retractable stretch film and adhesive tracking labels (bar codes).

### DOMESTIC AND INTERNATIONAL SHIPPING:

Jumbo rolls loaded directly into trucks or containers.

Standard rolls palletized.

### PALLETISATION:

#### >STANDARD ROLLS(JUMBO):

WIDTHS: Up to 5,20 m

LENGTHS: 500-700-1000 LM

No pallets. Non folded rolls

#### >CUSTOMIZED ROLLS:

(LESS THAN 500 LM)

Widths: From 1,50 to 2,90 m (non-folded)

Widths: Over 3,00 m (folded)

BIG JUMBO ROLLS ARE NOT PLACED ON PALLETS, EXCEPT FOR DOMESTIC DELIVERIES (FOR A LOW NUMBER OF ROLLS)
